I consent to the aforementioned procedure. I understand that surgical procedures and anesthetic events involve some inherent risks and that while the Animal Medical Center strives to minimize these risks, the results cannot be guaranteed. I also understand that during the above mentioned procedure, unforeseen conditions may be revealed that may necessitate extensions of the procedure.

Your pet's well-being is our greatest concern. Before surgery all animals are given a thorough physical exam. We also recommend a pre-anesthetic blood profile to maximize patient safety and alert the doctor of underlying disease processes that may complicate the procedure. These tests are similar to those your own physician would run if you were to undergo anesthesia. This blood-work will help determine if anemia, infection, liver, kidney, blood sugar, or urinary abnormalities are present. The cost will range from \$85.22 - \$107.94 depending on the animal's age. All animals over 8 year of age will be required to have the blood-work before surgery. We strongly encourage it for all other patients.

**I decline the recommended blood-work** \_\_\_\_\_

Micro-chipping your pet with HomeAgain is recommended for dogs and cats of all breeds and ages. The HomeAgain Pet Recovery Service is safe, simple and permanent form of pet identification designed to quickly identify lost pets and reunite them with their owners. The cost of the HomeAgain micro-chipping is \$40.00 and will be performed while the patient is anesthetized. An additional fee of \$17.99 will be charged to register the pet with the Home Again registry, this is a one time fee collected by Animal Medical Care and paid directly to Home Again for your convenience.
